

## Yeelight LED Bedside Lamp D2

The Bedside Lamp D2 not only supports control via app\* and voice control but can also be operated using the lateral touch bars which allow you to change the color temperature (from warm white to cool daylight), adjust the brightness and choose from 16 million colors. You can simply switch it on and off by tapping on the lampshade twice because the lamp is equipped with an acceleration sensor. In addition, it features several pre-programmed lighting scenes and time schedule functions.

\*Compatible with Android 4.4 (or higher) & iOS 8.0 (or higher)
