Create to learn.

Dear Customer,

in 2016 a new journey begins for CARIOCA® with new ambitions and perspectives. Let's start by talking about news and innovation.

With this catalogue, we invite you to discover all the new products we have developed in the last 18 months, besides the classic CARIOCA® products you already know.

Innovation starts in the heart of our brand: colors, with CARIOCA® Neon, the new line of fluorescent felt tip pens; CARIOCA® Tita, new resin colored pencils, and new way to play with colors, such as CARIOCA® Temperello, the poster paint in stick.

Brand new design and packaging which offer mums new opportunities to buy our products: pencil cases, travel cases, tin boxes and a new packing design.

Kids are always at the heart of our work.
The creativity development, needs and safety of younger kids are at the center of our work, every day.

And, about that, our new CARIOCA® BABY line is dedicated to them (starting from 12 months): products designed and engineered to fit their small hands and complying with the strictest worldwide safety standards and requirements.

Play is the core of this range: our products become the characters of the stories and fantasies created by babies and toddlers, where coloring is only an excuse to play and have fun!

We hope you will enjoy this catalogue as we did and we invite you to open our boxes and start to play: color, write, dirt your hands and have fun. Only in this way you will perceive and test the quality of our products and understand why we are so proud of them.

Create to learn, at any age.

Thanks you for choosing us.

Have a nice read.

Enrico Toledo
President and CEO CARIOCA S.p.A.

AN ITALIAN STORY.

CARIOCA® is an international brand born in 1965 and specialised in the production of drawing materials.

Its product range includes felt tip pens, colored pencils, tempera, crayons, educational games and many other drawing materials.

The brand asserts itself at the beginning of the ‘60s with a popular advertising campaign starring Carioca Jò, the animated gunslinger which is still the symbol of all CARIOCA® products.

QUALITY IN GOOD HANDS.

For CARIOCA® quality means attention to every detail, **which is also the work philosophy of the company.**

Every day a team of designers, chemists and craftsmen work together with passion in our factories to create simple but technologically advanced writing instruments, comparable to the best pieces of Italian design.

FANTASY. SAFETY. MADE IN ITALY.

The quality of our products is the result of 50 years of production and research in our laboratories of Settimo Torinese.

A complete range of writing instruments and drawing materials, born from the encounter of people and skills, and carefully designed to stimulate the creativity of children and adults.

Our local production is combined with an international vision. 85% of CARIOCA® and CORVINA® products are made in Italy and distributed worldwide, with a global network active in over 60 countries and across 5 continents.

FELT TIP PENS

Let's start from the tip.

Today CARIOCA® offers the widest range of colored felt tip pens on the market, with 9 different tips and 15 different types of felt tip pens. To free the imagination and creativity of all children. To give the right colored line to every page.

Super washable felt tip pens! Spotless heroes.

The super washable inks of CARIOCA® felt tip pens are produced entirely in our plants. That is why we guarantee to mothers and children maximum safety and traceability.
We only use food dyes and, thanks to years of research, we ensure unbeatable levels of washability and brilliance.

"Super washable" means that you need only one cycle with water to wash away all traces of ink from skin and fabrics.

"Washable" means easily removable with soap and water from skin and fabrics.

The tip can resist shocks and does not draw back.

The special holes on the caps let air pass through, so as to avoid the risk for suffocation. The internal valve also preserves the quality and duration of writing.

All materials and inks are colored using food dyes. The plastics used are suitable for contact with food and can be completely recycled.

FELT TIP PENS
Jumbo

Ogival maxi felt tip pens, octagonal for easy handling. Non-toxic washable ink. Washable from skin with water, with no soap.

Déco

Modeling dough, similar to clay, suitable for all molding techniques. Air hardening without cooking, smooth and easy to apply on any support. The objects created can be decorated with water colors such as tempera or felt tip pens. For higher durability and color brilliance it is recommended to use “Déco Glossy” protective paint to finish the object. Déco is available in white or terracotta versions.
