SPK9005 RUBY

The only such speaker!

If you are looking for a small device with great power, the Manta SPK9005 loudspeaker was created just for you! This unusual device, thanks to its small size - 125x60x60mm - is ideal for taking on a trip.

Take it with you!

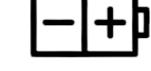

The speaker connects via Bluetooth 2.0 wireless technology, so it can be quickly and easily connected to a smartphone, tablet or laptop. The range of the device is up to 10 meters, thanks to which the speaker can be placed anywhere without loss of sound quality. Today you can listen to your favorite songs wherever you are!

Reliability and convenience

The Manta SPK 9005 speaker also has a MicroUSB socket, thanks to which charging the battery is very simple. What's more, this device is equipped with a very durable battery - the speaker's battery life without charging is 3-4 hours. The output power of the device is up to $3W \times 2$, it also has a built-in microphone.
