# Focus G series

## Let your hardware shine

The new Focus G series from Fractal Design is the cornerstone for your PC build, showcasing the hardware aesthetics at the heart of your system with elegant accents and sophisticated style.

Focus G : Contemporary ATX case design accommodates high-performance components with smart and efficient space utilization for a compact footprint.
Focus G Mini : Contemporary Micro ATX case design accommodates high-performance components with smart and efficient space utilization for a compact footprint.

Extensive cooling options are available with support for tall CPU heatsink/fan combos and water cooling with multiple dual-fan radiators.

Filtered front, top and base air intakes maintain a dust-free environment while expert cable management options keep wiring tidy.

With edge-to-edge visibility, clean contemporary styling and two Silent Series LED fans, the Focus G series makes your hardware the center of attention.

## Key features

- Available in black, white, blue, Petrol Blue, Mystic Red, and Gunmetal Gray
- Large windowed side panel
- Two preinstalled Fractal Design Silent Series LL 120mm White LED fans
- Six total fan positions for high-airflow capability
- Filtered front, top and base air intakes for a dust free interior
- (Focus G) Support for high-profile CPU coolers and multiple radiator configurations
- (Focus G Mini) Support for high-profile CPU coolers and multiple radiator configurations
- 18 - 25 mm of space for cable routing behind the motherboard plate
- Support for graphics cards up to 380 mm long without compromising hard drive space
- wo vibration dampened universal drive bays with support for6TB+ HDDs and 15mm SSDs, plus an additional 2.5" mount behind the motherboard tray.
- Front I/O panel includes USB 3.0, USB 2.0 and audio jacks
- Kensington anti-theft padlock bracket and re-usable ventilated expansion slot covers included

## Package contents

- Focus G computer case / Focus G Mini computer case
- Multilingual user manual
- Accessory box
