

SILENTSTORM BW120 PWM

The SilentStorm BW120 PWM is a PC fan that focuses on the essentials: With its classic black look and equipped with interchangeable vibration dampers in black and white, it will perfectly suit any PC case. At the same time, the adjustable rotation speed ensures the right amount of fresh air and provides the cooling for the most important computer components.

Features

RELIABLE PERFORMANCE

The SilentStorm BW120 PWM offers an adjustable performance of up to 1,400 rpm at an airflow rate of 89 cubic meters per hour, along with a maximum noise level of 28 dB(A). A stable fluid dynamic bearing ensures a reliable operation during a service life of at least 50,000 hours. In addition, several fans can be daisy chained and conveniently operated on one connection.

ADAPTABLE

The SilentStorm BW120 PWM is equipped with vibration dampers with rubberized contact points to reduce any vibrations onto the PC casing and improve the smooth operation of the fan. Both a black and a white version of the vibration dampers are included so that the fan can either do its work unobtrusively or, instead, be a highlight inside the case. The dampers can be simply interchanged for the desired version.

Specifications

Product Name	SilentStorm BW120 PWM
Fan Speed	450~1,400 rpm \pm 10 %
Bearing Type	Fluid Dynamic Bearing
Max. Airflow	89.06 m ³ /h
Max. Air Pressure	1.31 mm-H2O
Max. Noise Level	28 dB(A)
MTBF	Min. 50,000 Hours
Weight incl. Fixed Cable	132 g
Dimensions (L x W x H)	120 x 120 x 25 mm

Cable and Connectors

Fan Connector	4-Pin PWM
Fan Cable Length	450 + 100 mm

Electrical Specifications

Rated Voltage	12 V
Rated Current	0.15 A
Rated Power	1.8 W
Start Voltage	7 V

Package Contents

SilentStorm BW120 PWM, Swappable Vibration Dampers, Set with Fan Screws, Manual

EAN Code

SilentStorm BW120 PWM 4044951037971
