Argus RS-042 RGB – stylish RGB LED strip

The 50cm RGB LED strip from Argus provides 15 internal RGB LEDs for strong illumination inside the case and can be expanded with up to three Argus RS-042 RGB LED strips as needed.

The connection is made via the 3pin 5V RGB header (addressable RGB LEDs) of the motherboard, which is responsible for the synchronous color change of all connected components. The attachment of the RGB LED strip is either made via the integrated magnets or via the adhesive strip on the back.

✓ 50cm long strip with 15 RGB LEDs
✓ Expandable by up to three more Argus RS-042
✓ Color control via 3pin 5V RGB header on the motherboard
✓ Attachment via magnets or adhesive strips

Specifications

Rated voltage	5V
Connector	3pin RGB header connector for 5V digital Specific 3pin connection (only for Fan Set Argus RS-04)
Net dimensions (H/W/D)	3/10/1000mm
Package dimension (H/W/D)	12/100/130mm
Weight (net)	40g
Weight (gross)	50g
Packing units (VE/VPE/PAL)	1/100/4000
Warranty	24 Months
Article number	88885483
EAN-Code	4260455644815
Scope of delivery	Manual (german, english)
Features	Individually or for Argus RS-04 Fan Set usable 3pin RGB header connector for 5V RGB motherboard control 50cm long strip with 15 bright RGB LEDs 50cm long and flexible connection cable Attachment via magnets or adhesive strips
