

Argus RS-071 RGB – stylish RGB fan with crystal effect

The smooth-running 120mm RGB LED fan from Argus offers a stylish effect with a total of 24 RGB LEDs and its two transparent crystal effect rings. Rubberized pads in the fan corners on both sides of the fan ensure vibration-free operation and leave the option open whether the fan should suck in cool air or blow the warm air out of the case.

The connection is temperature-controlled via the 4pin PWM connection on the motherboard and is also connected to the 3pin 5V RGB header on the motherboard, which is responsible for the synchronous color changes of all connected components.

- ✓ 24 RGB LEDs with crystal effect
- ✓ Vibration-free operation thanks to rubberized pads
- ✓ Connection via 4pin PWM
- ✓ Color control via 3pin 5V RGB header on the motherboard

Specifications

Fan dimension (H/W/D)	25/120/120mm
LEDs	24
Fan speed	1200rpm
Rated voltage	12V
Max. current of the LEDs	0.5A
Air flow	59.81cbm/h
Noise level	22dBA
Connectors	4pin PWM Specific 5pin connection (only for certain Argus fan sets) 3pin RGB header connector for 5V digital
Package dimension (H/W/D)	170/123/28mm
Weight (net)	140g
Weight (gross)	175g
Packing units (VE/VPE/PAL)	1/60/1800
Warranty	24 Months
Article number	88885538
EAN-Code	4260455646178
Scope of delivery	Fan screws Manual (german, english)
Features	Individually or for Argus Fan Sets usable Y-connector for 3pin 5V RGB motherboard control Two transparent rings with a total of 16 RGB LEDs Transparent ring around the fan motor with 8 RGB LEDs Rubberized fan corners for vibration-free operation Fluid bearing
