

# Kensington

# UH1440P USB-C 5Gbps Dual Video Driverless Mobile Dock – 85W Pass-Through Power – DP/HDMI/VGA

Add up to two monitors (DP/HDMI or DP/VGA).

# K33853WW

#### **Product Description**

Professionals find that they can be more productive when connected to multiple monitors. With more people working between different locations and connecting to different (and often legacy) monitors, a compact, mobile dock that can accommodate these setups is required. The UH1440P USB-C Mobile Dock makes the most of legacy monitors, allowing you to connect up to two DP/HDMI or DP/VGA monitors. Universally compatible, this USB-C driverless dock supports up to 85W power pass-through - ideal if you don't wish to travel with a bulky power brick. Instead, you can use your laptop's USB-C power supply to charge your laptop while also powering the dock. The 10-in-1 design includes three USB-A ports, a 3.5mm audio jack, Micro and SD card slots and one Gigabit Ethernet port.
