

# FOREVER WIRELESS CHARGER

WDC-300

Keep your cell phone fully charged at all times with this ultra convenient and tech forward Wireless Charging from Forever. Thoughtfully designed to provide your cell phone with a full charge without the need for a wire, this handy charging stand supports up to a 9 V input and can be used to charge a phone both vertically and horizontally with its dual coil design. Forever Wireless Charging also boasts a LED indicator to display your phone's charging status. This wireless charging stand is small enough to fit practically anywhere, so you can charge wherever it's convenient. Designed for use with compatible Qi-based wirelessly charged smartphones, this wireless charging is sure to take the hassle out of daily phone charging, never requiring you to find your charging wire again.
