SLAM 4.0 navigation and improved Mamibot V + Gyro technology

Mamibot ExVac 680S equipped with a Smarteye camera™ scans the environment within a radius of 360°, and the latest 4th generation of gyroscopic technology and a dual-core processor process the acquired information about surroundings and draw a smart 3D map of your flat. Smart route planning, obstacle sensing and omitting and precise return to home position - everything at your fingertips!

Vacuum cleaning silent or with turbo-power - whatever you prefer...

Three power levels, three volume levels:

Silent Mode: 1,000 Pa / 55 dB
Standard Mode: 1,800 Pa / 62 dB
Turbo Mode: 2,800 Pa / 72 dB

All these features are possible thanks to a very reliable built-in Japanese NIDEC motor of a speed 20,000 rpm.

CLEANING ROBOT MAMIBOT EXVAC 680S

Use remote controller or WeBack application to operate your cleaning robot

Not very happy with using the app on your mobile? Fine, just use the convenient remote controller and enjoy all functionalities of your cleaning robot. For users who appreciate enhanced capabilities of the application, the vast array of functions such as spiral spot cleaning, electronic water metering, cleaning scheduling, selection of suction power level and many others is available.

Four functions to make cleaning efficient

Routine cleaning

Spiral spot cleaning

Cleaning along the

Combined mopping with

Only 8.1 cm high, easily passes thresholds up to 1.8 cm high

One of the lowest cleaning robots on the market. Easily fits space under a sofa, wardrobe or bed. Easily passes thresholds and skirting boards.

Maximum safety

Cleaning robot is provided with 6 fall and 15 collision prevention sensors.

CLEANING ROBOT MAMIBOT EXVAC 680S

3in1: vacuum cleaning, mopping and sweeping

Do you have a dog or a cat? Kids came back home straight from the playground? Remember - your home is for resting, not for cleaning! The Mamibot ExVac 680S is equipped with a dust container of 600 ml capacity, which makes it one of the largest options available on the market.

Cleaning completed but floor is still not shiny? No problem! Thanks to wet wiping combined with additional sweeping and removal of fine dirt particles this issue will not bother you anymore. A large 370 ml water tank is sufficient to clean a very large floor area, and electronic water metering feature enables proper cloth soaking to clean parquet, terracotta or floor panels.

Triple-stage dust and dirt filtration

Dust and dirt re-emission is a very important issue, especially for those, who suffer allergy. To prevent this, the Mamibot ExVac 680S robot is equipped with three air outlet filters: a washable pre-filter that retains the largest dirt particles, a sponge filter and a HEPA filter. Take good care of the quality of breathing air!

Return to battery charging station

Battery low? Not your concern! Cleaning robot returns on its own to the charging station, and, once charged, it resumes cleaning in the same place where it stopped.

CLEANING ROBOT MAMIBOT EXVAC 680S

Accidental entanglement in cables?

When the Mamibot ExVac 680S gets trapped during cleaning, it starts 360° scanning the surroundings and attempts to release. If attempt unsuccessful - you receive a message in your WeBack app and the robot enters stand-by mode for 10 minutes.

Control by voice? Why not?!

Remote controller or mobile app is a convenient tool but it requires using hands. But, you can control the robot even easier and faster! The Mamibot ExVac 680S supports Google Home and Amazon Alexa functions, so you can give commands by voice and the robot will follow them.

Amazon Alexa/Google Home compatible

"Alexa, Turn on the robot"

"Alexa, Stop the robot cleaner"

"Alexa, Recharge the robot cleaner"

The accessories are sufficient for a long period of use:

- ✓ (2) microfibre cloth
- ✓ (2) sets of side brushes
