3 Beverages LatteGo, Silver and black, Touch display

Highlights

3 aromatic coffees

Enjoy your favourite coffees for your special moments. Whether you crave an espresso, an americano or a latte, your fully-automatic espresso machine delivers a perfect result with no hassle and in no time!

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups*, while enjoying clear and purified water.

Removable brew group

The brew group is the heart of every bean to cup coffee machine and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

LatteGo milk system

Top your coffee off with a silky-smooth layer of milk froth. The LatteGo mixes milk and air

at high speed in the round frothing chamber, then adds a splash-free, creamy layer of milk froth to your cup at just the right temperature.

2 parts, no tubes milk system

Our 2 parts milk system has no tubes or hidden parts and can be cleaned in as little as 15 seconds under the tap* or in the dishwasher.

100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures that they last for at least 20.000 cups.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favourite coffee.

EP2236/40

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

Dishwasher-safe parts

For your convenience, you can put the milk system, drip tray and the coffee ground container in the dishwasher. This will save time and ensure a hygienic clean.

Specifications

Country of origin

- Designed in: Italy
- Made in: Romania

Technical specifications

- Cord length: 100 cm
- Voltage: 230 V
- Frequency: 50 Hz
- Capacity milk carafe: 0.26 L
- Capacity water tank: 1.8 L
