

WMF Lono Aroma thermos coffee machine

An elegant and easy-to-operate filter coffee machine with an insulated jug for optimal coffee enjoyment

Elegantly designed, made of high-quality matt Cromargan® and with Aroma Perfection for individual adjustment of the aroma strength, the WMF Lono coffee machine is a must for lovers of design and coffee. It is also a joy to operate: The removable water tank made of BPA-free Tritan has a water-level indicator, enabling you to fill the exact number of cups required. The thermal jug with a practical opening and closing mechanism and keep-hot thermal insulation can hold up to eight 125 ml cups of aromatic coffee. Thanks to the swing filter, coffee grounds can be added easily and without spilling any. Quick to start up via the user-friendly control panel, the high brewing temperature of up to 95°C allows the aroma to perfectly unfold and creates an intense, full-bodied coffee taste. The removable filter insert (1 x 4) has a drip-stop function and overflow protection as well as an automatic descaling programme.
