Kuando Busylight UC
Features & Specifications

One brand - two designs	Suitable for different user groups and all facility surroundings. Fits larger corporations with different needs. **Alpha** – Black Pole model and larger globe **Omega** model. **Supports:** Lync, Skype for Business, Cisco Jabber and various UC platforms.
Presence indication	**Lync/Skype4B** - Green=available, Red=busy, Red flashing=in a call, Yellow=away, Purple=Do not Disturb, Blue=Ringing & Missed notification. **Cisco Jabber** - Green=available, Red=busy, Yellow flashing=in a call, Yellow =In a Meeting, Red=Do not Disturb, Blue=Ringing & Missed call.
Call & IM Alert	Includes a speaker which will give an audible alert for inbound calls and IMs and a light signal on missed calls/IM's (configurable) This helps to prevent missing calls/IM especially in softphone environments.
Flexible mounting- Alpha	Includes both Magnetic and Adhesive mounting options for 'On the Go' users - easy clip on/off. Metal plate for notebook mounting and monitor placement. Busylight Alpha has a flexible 180 degree rotating base so it can be placed more conveniently on different surfaces.
Missed Conversation	Busylight signals that a Call or IM was missed (Jabber version only supports Missed call) if you've stepped away. Your current status is displayed with splash of 'blue' every 5 seconds.
USB Cord Length	~9 feet/2,75 m
Hotkeys: Quick answer + Quick dial	Provides more efficient and faster call handling
Busy on Busy option	Suppresses 2nd inbound calls so users are not interrupted or distracted while they are on a call
Certifications:	CE, FCC, EMC/VCCI, RoHS
Technology partners	Qualified by Microsoft and Fujitsu. OEM for Jabra Busylight.
SDK	Develop your own software solutions for Busylight.
