

Powerbank 30000 AlwaysOn DC+PD

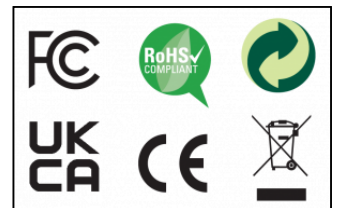

Item no.:

420-88

EAN:

5705730420887

The Powerbank 30000 AlwaysOn DC+PD is an extremely strong powerbank that can charge 2 large laptops simultaneously. Its two PD/DC ports, each with 100W capacity (even up to 120W for the DC), mean optimum power when you are on the move, or as a backup in the event of a power outage. In addition, there is a powerful QC 3.0 USB-A port, with 18W. The digital color display in the front panel gives an instant overview of charge status and battery capacity. Fast charging of the power bank in less than 90 minutes. The optional AlwaysOn function makes it possible to charge devices with low power consumption without the auto-off function shutting down the power bank.
