

# Hybrid-Stereoradio with CD Player

# TELESTAR DIRA S 32i CD

## FULL-SCALE MUSIC STREAMING ACCESS!\*

\* if supported by provider and software

With the DIRA S 32i CD, TELESTAR is setting the standards in the area of stereo smart radios: With the S 32i CD, comprehensive functions meet user-friendliness, optimum sound enjoyment, high-quality components and elegant design. The full-featured system receives digital DAB+, analog FM as well as radio channels streamed via the internet, has a CD player with MP3 playback, allows access to numerous music streaming services and thanks to UPnP, Bluetooth 5.1 (with transmit and receive function) and USB, can play music files from external devices or media. The large TFT 3.2" (approx. 8.1 cm) colour display provides useful background information in razor-sharp quality, 2.3" loudspeakers,

each with 15W power, provide optimal listening enjoyment in combination with the digital sound processor (DSP) and comprehensive equaliser. An additional highlight: thanks to the recording function, you can easily record music streams at the press of a button or using the programmable timer onto a connected USB media device! Handy additional functions, such as the alarm clock, sleep timer or presenting useful weather information round off the long list of functions of this radio - in short: The DIRA S 32i CD is a top-notch smart radio, offering everything a modern radio should provide.
