

Nitrox GT-100 RGB gaming mouse

The ergonomic Nitrox GT-100 RGB gaming mouse offers you a multitude of individual setting options. The software provides 7 freely assignable macro keys on which preferred commands and actions for various games can be set. Using the software or the integrated dpi button, the speed of the SUNPLUS 6651 sensor of the mouse can be easily adjusted in six steps between 200-6400 dpi.

Further features are the forward, backward and special buttons on the side as well as the 6 selectable RGB effects that can be set via the software. The 1.50 m long, sleeved USB cable with an integrated ferrite core makes you independent of batteries and ensures trouble-free game operation. High-quality click switches also offer a long service life of well over 10.000.000 clicks.

- ✓ 7 macro buttons adjustable via software
- ✓ dpi number adjustable in six levels (up to 6400dpi)
- ✓ 6 selectable RGB effects
- ✓ high quality click switches (>10.000.000 clicks)
