

CFexpress Card CFexpress 860

Transcend's CFexpress 860 Type B memory card features blazing-fast speeds, sustained write performance, and high storage capacity for professional filmmakers and video editors. Countless files can be stored and smooth 8K RAW video can be shot without compromising video quality—ultimately making it an ideal choice for capturing outdoor recreation, wildlife, action shots, and many other kinds of incredible content.

Made For Multimedia Professionals

Designed exclusively for professional photographers utilizing mirrorless cameras and cinema cameras, Transcend's CFexpress 860 Type B memory card is ideal for capturing outdoor recreation, wildlife, and action shots. It is particularly handy when shooting 8K RAW video, offering professional photographers, filmmakers, and content creators impressive transfer speeds and durability without sacrificing quality.

Convenient Storage & Stellar Performance

Transcend's CFexpress 860 Type B memory card delivers impressive read/write speeds of up to 1,750MB/s and 1,500MB/s, with a sustained write speed of up to 1,300 MB/s, making it ideal for non-stop, burst shots of outdoor sports, wildlife, fashion, and other kinds of photography. Discover and unleash your true potential as a professional with the CFexpress 860 Type B memory card!

Ample Storage Capacity

Transcend's CFexpress 860 Type B memory card provides up to 320GB of storage capacity to store thousands of RAW files and high-quality photos. Now there's no limits to your creativity!

CFexpress Card CFexpress 860
