WiFi Smart Light Switch | Single

General information

Traditional light switches just got a lot smarter. This Smart Wall Switch for Lights allows you to remotely and automatically take control of your lighting.

Easy to set up
The switch can be used to control your light by simply using the touch button on it. But, it also allows you to connect it directly to your Wi-Fi router and gain control of the light from your smartphone, tablet or by speaking, when used alongside Amazon Alexa or Google Home.
Note: Neutral wire required to always power the switch with 230 Volts

Schedule and pair
The intuitive app that provides the brains behind this Smart Wall Switch for Lights allows you to pair this light to other appliances to create the perfect ambient setting in your room with just one command or set the light to turn on automatically - ideal if you are going to be away for a few days.

Discrete
The sleek and easy-to-clean glass front blends into your interior, and yet this discrete unit is powerful enough to support electrical lights of up to 300 W.

About Nedis® SmartLife
Discover a wide and ever-expanding range of products - such as bulbs, switches, sockets, sensors, and cameras - that can all be controlled through an easy-to-use and intuitive app. With voice control features supported by Amazon Alexa and Google Home, and no need for anything more than your existing Wi-Fi network, this is the connected, smart home made simple.
Whether you're looking for a single smart bulb or socket, or you want to automate your entire house, discover how accessible smart technology is today.
