Smoke Detector | EN14604 | Connectable | Set of 2 Detectors

General information

The smoke alarm increases home safety. It is provided with a learning button that wirelessly interconnects to an unlimited number of DTCTSC10WT smoke alarms. If one device detects smoke, it sends out a signal through radio frequency which activates the others as well. Also equipped with test button and low-battery alert.

Features

• Duo-pack Wireless Interconnectable Smoke Alarm
