Personal wireless lighting

The brains of the Philips Hue smart lighting system, the Hue Bridge allows you to connect and control up to 50 lights and accessories. Simply plug it in and use the Hue app to set routines, timers, custom light scenes and more.

Limitless possibilities

- Away-from-home smart light control
- Connect up to 50 smart lights
- Up-to-date at all times
- Smart home automation hub: Hue Bridge
- Add smart switches, sensors and more
- Control lights with your voice

Highlights

Away-from-home control

Connect your smart lights to the Hue Bridge and download the Hue app to ensure that your home is well lit no matter where you are. Set light routines in the app to turn your lights on at a certain time, mimicking your presence to give you peace of mind.

Connect up to 50 smart lights

The Hue Bridge allows you to connect up to 50 lights, so you can outfit your entire home – inside and out – and control them all within the app.

Up-to-date at all times

Philips Hue uses ZigBee, a safe and reliable low-power technology, to control your smart lights. All new features and improvements made to the system are automatically updated to your Hue smart lights.

The Hue Bridge

The Hue Bridge is an essential component to a personal Philips Hue smart lighting system. It is the brains of the operation, communicating with both your smart light lamps and the Hue app to ensure that everything works together. It also enables smart home automation features like scheduling routines and timers.

Add smart switches and sensors

Enhance your Hue smart lighting system with various accessories, including smart dimmer switches and motion sensors. Connect up to 12 accessories on one Hue Bridge and fully automate your home.

Control with your voice

When connected to the Hue Bridge, you can pair your lights with Alexa, Apple HomeKit, and the Google Assistant and control your lights using just your voice. Simple voice commands let you turn your lights on and off, dim or brighten your lights, and even set a light scene.

Specifications

Environmental

- Operational humidity: 0%<H<80% (non-condensing)
- Operational temperature: 0 °C - 40 °C

Extra feature/accessory incl.

- Power adapter included: Yes

Guarantee

- 2 years: Yes

Power consumption

- Energy efficiency label (EEL): n/a

Service

- Warranty: 2 year(s)
