Premium High Speed HDMI™ Cable with Ethernet | HDMI™ Connector - HDMI™ Connector | 2.00 m | Anthracite

General information

Trust the cable with the label!
The Premium HDMI™ Cable Certification Program is the program from the creators of HDMI technology. It encompasses additional and enhanced cable testing as well as an authentication and verification program. Premium certified cables are tested to ensure they support the full 18 Gbps bandwidth from the HDMI 2.0b specification plus an EMI test to ensure cables minimise interference with wireless signals.

The program is designed to give end users confidence when purchasing new HDMI cables for the 4K/UltraHD products that may include features such as 4K@60Hz, BT.2020 and HDR. The ATC-tested HDMI Cables are promoted as Premium High Speed HDMI Cable with Ethernet by using a unique anti-counterfeiting authentication label. This label can be scanned by the end-user using an official HDMI mobile application.

This Nedis® Premium certified High Speed HDMI™ Cable with Ethernet supports the 18 Gbps bandwidth and are equipped with the official Premium certified labels. This label is the guarantee to end-users that they are buying the right cables for their purposes.

Features

• 24 ct gold-plated contacts for an outstanding image quality
• 4K@60Hz image support for the highest resolution, rich natural colours and high contrast
• Shielded cable and connector for interference reduction and reliable image quality
• Premium certified guarantees a bandwidth of 18 Gbps supporting 4K@60Hz resolutions
